Quote 85955 Continued

Pictures have been taken of equipment, interior and exterior vehicle condition, etc. at time of inspection and estimate for services. Note: Vehicle was delivered to us by Martin's Towing with a dead battery and had to be jumped in order for us to bring into our facility. Should also be noted vehicle is struggling to stay running after it is jumped; multiple warning lights on dash are on and we suspect charging system issues; vehicle shows significant signs of wear on interior and exterior (for example but not limited to: driver's seat trim broken).
